incredibly short year, there are in WFSH . . .

As Time Goes By

Time is an important element in the life of every WFSH student. For most of us time goes by much too rapidly, giving little time to enjoy all the activities in which we desire to participate. Both days and nights play a vital part in the typical student's life in our high school. Moreover, as we progress, the time becomes even more valuable, until as a frenzied senior the once eager sophomore reaches the peak of his high school career.

With the knowledge gained in WFSH, young men and women are more suited for making good use of their time after completion of their study in these cherished halls. As the years progress and courses in college are begun and finished, many who attended this school will become valuable to their generation as doctors, housewives, scientists, carpenters, teachers, ministers and others working in almost every conceivable field. Even after a great expanse of time has gone by, WFSH students will be remembered by their descendants as successful in a day with extremely difficult problems.

Thus, because of the fundamental and efficient training that we receive while in this high school, our chances for success are strengthened. The 1954 COYOTE staff has attempted to portray the use of time in WFSH, whether for serious studies in the day or gay activities at night. Our teachers have received much consideration, for they are actually the focal point of our school. Since extra-curricular activities are always appealing, many pages have been devoted to them. Likewise, good reasons could be given for each section — even each picture — of the 1954 COYOTE. Most important of all is the individual student, and each has been given his place in the publication.

We trust that the efforts of this staff will serve as a valuable reminder for you twenty, thirty or even forty years in the future. A span of exactly forty years has elapsed since the first COYOTE rolled from the press. Before that 1914 edition Wichita Falls Senior High School published THE SUNFLOWER in 1913, the one existent copy now being almost forgotten and showing the ravages of time. We desire a brighter future for this effort.

If this annual will be valued in the future as a useful remembrance of the good times and associates of 1953-1954, our theme, "As Time Goes By," will have been prophetic indeed.

Dedication

The school year of 1925-26 was a year of many valuable gifts to WFSH, but the finest and most useful gift that year was a library. The donors of this wonderful addition to the facilities of Senior High School in Wichita Falls were Mr. and Mrs. C. W. Snider, for whom the library was gratefully named.

The 1926 COYOTE summed up the dedication of the Snider Library in these words: "One of the most impressive ceremonies ever witnessed in the assembly hall of the Junior College was observed on the morning of December seventeenth, nineteen hundred twenty-five, when representatives from the city of Wichita Falls, the school board, and the student body of the high school and college gathered to pay tribute to Mr. and Mrs. C. W. Snider, the donors of the Snider Library."

Through the years since Mr. Snider's death, Mrs. Snider has recognized the importance of the culture and knowledge that students gain from her annual gift of books and magazines. She seems to believe fervently that the foundation of every state is the education of its youth. Being the unseen friend of all WFSH students, she benefits thousands whom she does not know personally by her generous donations.

Without the continued gifts of books by Mrs. Snider, the library would not be up-to-date as it is now. Although many WFSH students do not know this wonderful lady in a personal way, they do appreciate and cherish her in a very special manner. Benjamin Franklin said, "When befriended, remember it." Students of this high school will always remember Mrs. Snider. Thus, because of her every gift, because of the spirit of kindness prompting these donations, and because of her interest in the welfare of young people, we sincerely dedicate this 1954 COYOTE to Mrs. C. W. Snider.

Faculty Off Hours

Among the old and new students arriving at WFSH for another year were these seven new teachers. Remember? Standing left to right are Mr. Barton, Mr. Siebenthall, Mr. Pace, Mrs. Knight, Mrs. Menefee, Mrs. Conrow and Miss Stone in the foreground.

Mr. and Mrs. Moss were among those who attended the reception

Courtesy prevails in the faculty; Miss Horton and Miss Highsmith wait their turn in line for cokes

Everyone in the receiving line is smiling a greeting to Miss Farabee at the teachers' reception which was held in Mr. Freeman's home during October. Miss Wood says that the refreshments are delicious.

Mr. Reeves' favorite pastime is to accompany students on out-of-town football trips.

Those all important final semester grades were recorded one afternoon late in May. It was a big job, but the last one.

Scholastic Standing

As time goes by, additional courses are introduced to meet the changing needs. The different departments provide a varied choice of studies to be scheduled for each of the more than seventeen hundred students in WFSH this year.

Since four years of English are required for graduation, fourteen teachers of English are employed in this fundamental department. Important preparations for college are acquired here. This department sponsors *The Coyote News* and *The Coyote* in collaboration with the art department.

The Department of Social Studies provides students with definite training for better citizenship in later life. Its courses give a background for a career in diplomacy or in politics.

Slide Rule Club is an additional study in the Department of Mathematics. All students interested in science, astronomy, physics, engineering and architecture find particular profit in the higher mathematical courses. In order to receive a diploma, each student must earn two credits in mathematics.

Since Latin and Spanish are the only foreign languages taught, they constitute the Department of Language. Some colleges are raising their requirements in language by making Latin essential for entrance. Two service clubs supplement the work in the field of language. Students of the Latin Club are not content to have gods and goddesses preside over the slaves, common people and senators at the annual Latin banquet and to re-enact the customs of the ancient Romans in the spring Floralia. Instead, members add the project of supplying food to needy families during the Christmas and Thanksgiving seasons.

Pan American Student Forum, a club for the Spanish students, gives an annual Christmas party to the Spanish speaking students of Travis School, sends delegates to the PASF state convention in Austin, sponsors the study of some different American country each year and promotes the spirit of Pan-Americanism in WFSH.

Biology, chemistry and physics constitute the Department of Science. Although these courses are considered more difficult than some others, they are essential to most students who desire to go on to college and give the average student practical information about the human body and nature.

Our scholastic standing is broadened through the fine Department of Music in which many students develop their talents in the choral groups and the two band groups. The Coyote Band faithfully performs in parades, pep rallies and the half-time at all the football games. In the sound proof practice rooms in the new building this year, an a cappella choir, a mixed chorus and ROTC singers make constant progress in the field of choral music.

WFSH would be incomplete without the showcases which are arranged by the Department of Art. Six art courses insure sufficient variety to develop the individual student artist who can sample everything from poster making to oil painting. From these artists, the art staff for *The Coyote* is selected.

The Department of Speech helps to maintain our high scholastic standing by training the individuals who win so many honors for WFSH in debate, speech, play productions, radio and television. This year many students are learning about television programs by actually participating in them.

At the present time there is a great demand for work in the Commercial Department where students are trained for detailed and tedious work. Industrial co-operative training, introduced this year, provides a profitable study in industry. Distributive education and diversified occupations, two part-time courses, furnish opportunity for many to acquire experience and education in the same length of time. Shop and mechanical drawing afford practical manual training. Behind the scenes of every play and most social events is the work of the stagecraft class which builds colorful background sets.

In the Department of Home Economics young women are trained in the arts of homemaking so that the wives of tomorrow will be able to cope with the problems arising in the future.

The Reserve Officer Training Corps, now in its third year, is of growing importance to our country as well as to our school.

Valuable exercise is available to boys and girls in the Department of Physical Education. The boys have moved to the new gymnasium this year, and the girls use the enlarged old one.

Thoughtful students of WFSH believe the reason for a high scholastic standing is that here is found one of the best faculties in the state to direct these appropriate courses.

ACTIVITIES

As Time Goes By

In September a group of twenty-nine inexperienced students under the direction of Miss Mattye Mae Haynie began work on the 1954 *Coyote*. Throughout October and November the staff tried to get as many pictures of as many students as possible in order to produce an annual that would leave a lasting impression of the growth and progress of WFSH during 1953-54.

Hurrah for us, we met our first deadline with pages to spare! After the Christmas holidays in January another deadline was staring us in the face, and the staff took on that haunted look that comes from writing copy, neglecting homework and getting a minimum of sleep. In February Miss Haynie had nightmares in which she saw hundreds of annuals with *blank* pages. By the middle of March we breathed a sigh of relief as we met our last deadline. All copy to be proofread was sent back in April. Early in May the staff began to wriggle excitedly as time drew nearer for the presentation of the 1954 *Coyote*.

Throughout the junior English classes are scattered the future journalists of WFSH, chosen by their teachers to become the Coyote News staff in their senior year. Having been approved for the journalism class, these eager writers study the techniques of reporting and preparing copy. In addition to this work, staff members study English literature and do many other writing chores. The advertising staff has the all-important task of securing ads, a necessary help in financing the paper. Two thousand copies of each issue are run. Each member of the circulation staff has a route in the building and quickly distributes his load of papers to each room on his list.

The climax of journalistic writing is the sight of one's work in print. Pictured is the journalism class admiring the finished product.

All journalists must be able to type. Janis Crocker, Gerry Johnson, Ann Copelin, Priscilla Rathgeber and Carolyn Riddle prepare their copy for a pending deadline.

Jennie Lou Bassett, Marilyn Moffett, Ann Fanning, Joy Moore, Mary Pritchett and Jacqueline Partney, members of the circulation staff shown with Mr. Presson, are ready to deliver the paper to the students.

OFFICE PRACTICE AND VISUAL EDUCATION

Under the direction of Mr. G. A. Reaves, these students learn the functions of a business office as well as helping with various school sales and collections. They also operate and maintain all visual education equipment.

Office assistants spend at least one period daily helping with attendance records, picking up absentee slips and performing many other duties in our office. Each six weeks, one of the groups is designated as the best staff for that period. The judging is based on points awarded for high scholarship, efficiency and good citizenship. The work of the office assistants is not all done in the office, however, as they sponsor many school activities.

Is there a seat for Gloria Carnes?

Freddie doesn't know that three is a crowd.

Gay is eager to be off for the game in Fort Worth.

They've got nothing to be proud of, because they played a game. That was Coach Joe's reaction after his Wichita Coyotes, battling against Waco Tigers, held the powerful and one-half quarters before ing, 13-0, at Coyote Stadium day.

Until the Tigers' Raleigh Haring blocked Clyde King's punt on the Wichita Falls seven-yard line seven minutes deep in the first period to set up the instant touchdown, the inst had high hopes of the greatest upsets.

After Harvey gave scoring chance, bruising Phipps—200-pound halfback with 95 yards in 22 carries—six in two tries, then Jim Wallace banged across from the Bobby Gill place-kicked fourth period Coyote's magnificent little presence.

Waco observers rated the Coyote as the equal of any they've faced this year, and heralded Reeves as the finest back they've watched in several seasons.

The rugged Tiger defense took on the 28.

Ass specialist Roy Garner to the Tiger helm, fired twice, successfully, then finally hit Ivey on a screen as the half ended with Don Sachse making the play on the Tiger linebacker back.

Wichita Falls' determined Coyotes squared their bi-district series with San Antonio's Jefferson Friday night, dominating the backboards by a margin of 17 rebounds to shock the Mustangs, 59 to 46, before 1,500 fans at Coyote Field House.

Third and final game of the bi-district play off will be unveiled here Saturday night at 8 o'clock, with the winner advancing into next week's state tournament at Austin.

Coach Perry Goolsby's Coyotes

Coach Goolsby gives the Coyotes brief instructions during a timeout.

gained sweet revenge for Tuesday's 61-42 setback at San Antonio, and the Pack accomplished the feat with a zone defense that allowed the Mustangs only one try at the basket most of the evening. Wichita Falls outrebounded Jefferson, 41-24, and that was the difference in the fiercely-fought contest.

20 Goals Each

Surprisingly, the San Antonio boys tied the Coyotes in field goals, 20-20, although the Wichitans held a 10-point lead throughout most of the last three quarters. Wichita Falls took 60 shots from the field for a 33 percentage, while Jefferson attempted only 48, connecting on 42 percent.

The Coyotes topped the visitors from the free throw line, 19-6, despite the fact that Jefferson missed only three tries. Twenty-two fouls were assessed—14 against Jefferson and eight against Wichita Falls. It was a loosely-called game, and the two teams banged each other all over the court in the second half.

Wichita Falls led all the way after the first two minutes, rolling to a 13-8 advantage at the quarter, increasing it to 29-18 at half time and going into the second session with a 12-point lead, 42-30.

Brief Comeback

Jefferson's comeback midway through the quarter, pulling within eight points of the Coyotes, 46-38. But when the Mustangs' Don Martin missed an easy layup that would have shaved the difference to six points, it killed Jefferson's hopes, and the Pack was never in danger during the final minutes.

Pat King paced the Coyotes with 21 points, while Tommy Wells made 14—eight of them free throws—and Leroy Toon contributed 12. As usual, Jefferson's scoring was well-distributed, it wasn't enough this time. Mattallied 13, Larry Byrd contributed 12, Marvin Kalisky made 10 and Clyde Sturgiss added eight.

Jefferson's Bob Dulaney, who sparked the Mustangs to their earlier victory over Wichita Falls with his all-around play, was benched most of the second half and did not score a point. The Coyotes' zone defense gave him few opportunities to break into the scoring column.

Coaches Joe Reed and Hunter Kirkpatrick deserve much of the credit for the track team's success last year. They guided the Coyotes to first place in District and third place in Region.

Dad,

Well, Dad, here we are at the end of another school year - another year of our friendship which I hope will last forever.

It's been real great playing football with you and I really appreciate the help on my getting back in shape for baseball.

Well, Dad, before I close I'd like to wish you luck with the rest of everything in the future. I'm sure you will succeed in everything you attempt to do.

Your truly, son,
Lester
